

Movie X LED

Light source: LED 6.5W

The lamp has been designed and built in accordance with applicable harmonised standards and other technical specifications. It is therefore state-of-the-art and ensures safe operation. The lamp may only be used for the intended purpose.

Note:

The safety distance from objects must be a minimum of 0.3 m.

ATTENTION!

Ensure that the lamp is not plugged in during assembly.

- ① Carefully remove the lamp from the box and remove the packaging material. Put the lamp on the floor.
- ② Stick the felt plate under the lamp stand.
- ③ Using a hex key, mount the footplate and the cover plate to the luminaire with the enclosed screw (see illustration).

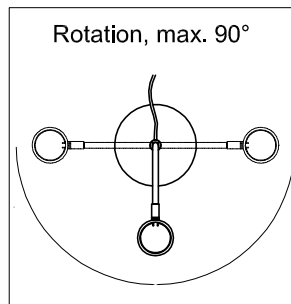

- ④ Place the lamp in the desired position. Pay attention to the maximum twist angle.

Adjusting the lamp:

Hold the angled inner tube firmly and undo the knurled screw. Adjust the height and then tighten the knurled screw again. You may need to push the cable in somewhat through the inlet.

Do not attempt to rotate the inner tube past the limit stop.

Degrees of movement:

Switching on and dimming the lamp:

Use the button on the lamp head

short press: switch on and off

long press: dimming

Cleaning:

Disconnect the mains plug and allow the lamp to cool down.

We recommend cleaning the lamp with a soft, dry cloth. You can use a commercial glass cleaner for the lens.
